- **Centers for Disease Control and Prevention Guidelines for the Prevention of Intravascular Catheter- Related Infections state-**
"Showering should be permitted if precautions can be taken to reduce the likelihood of introducing organisms into the catheter (e.g., if the catheter and connecting device are protected with an impermeable cover during the shower)." (published August 2002)
- Latex and DEHP free
- FDA registered
- ISO 13485:2003 standards certification
- Made in the U.S.A.

Ordering AquaGuard

IMA
Independent Medical Associates

When ordering AquaGuard's standard dressing protection, select the size that is slightly larger than the actual area or device needing coverage. For areas needing range of motion, purchase one size larger than the area to be covered.

To learn more about how AquaGuard can help decrease your costs and reduce the chance for infection, please contact Independent Medical Associates via 1-888-548-4462, www.I-MA.com or info@I-MA.com.
