

# Pooling Harness Sets

## Pooling using a Charter Medical, Ltd. pooling harness:

- Reduces potential for cross-contamination by using each spike only once.
- Decreases product preparation time due to reduced repetitive motions.
- Eliminates splashback potential created when removing spike from port to re-use.

### Most Common Uses:

Pooling Plasma for Therapeutic Apheresis	Pooling Whole Blood Platelets or Cryoprecipitate	Pooling Any Blood Component Into Any Transfer Bag
--	--	---
