

Engineered to meet the unique needs of your smallest patients

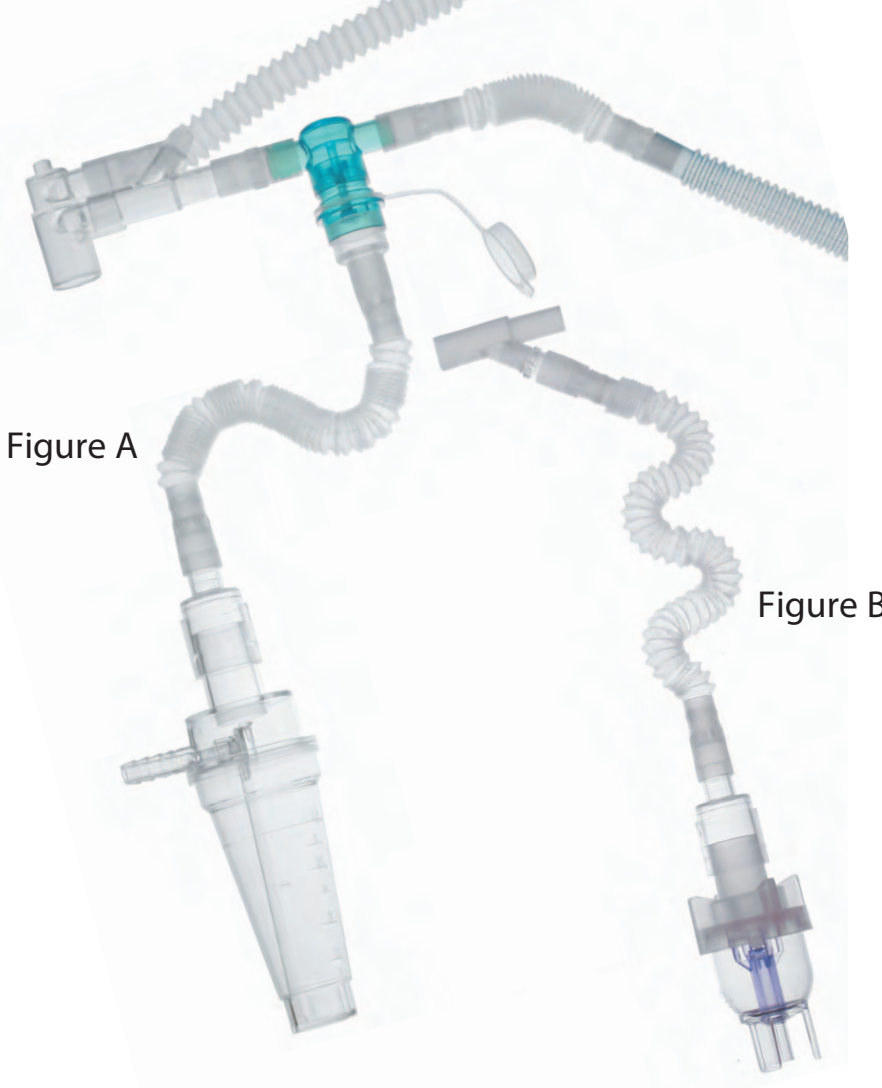

Figure A

Figure B

Westmed innovative solutions for NICU give the clinician the option to use the MiniHeart® Low-Flo with the Thayer Valved Tee (Figure A) or the VixOne™ with Infant Nebulizer Kit (Figure B).

NICU Nebulizer features and benefits:

- Westmed Solutions for Neonatal Intensive Care
- High-performance VixOne™ nebulizer with unique aerosol delivery system
- Very low dead volume (0.7cc)
- Nebulizes in upright positions or at angles up to 45 degrees
- The low-cost MiniHeart® Lo-Flo is ideal for flow sensitive ventilators
- The Neonatal Thayer Valved Tee™ reduces the amount of time that constant inhalation flow is interrupted
- The Neonatal Thayer Valve reduces cross-contamination, remains inline when not in use and less ventilator circuit manipulation
