*Manufactured catheter stabilization devices are now listed as “preferred” in the new Infusion Nursing Standards of Practice¹. **Grip-Lok[®]** is a stabilization and securement device strong enough to lock catheters, tubes and lines securely in place, yet versatile enough for almost any securement situation.*

Safe

Grip-Lok[®] is latex free and packaged sterile, allowing you to use Grip-Lok[®] close to the insertion site or right in the sterile field.

Simple

Grip-Lok[®] is applied in the same simple manner as a bandage and can be **easily placed and adjusted by gloved hands**.

Secure

Durably engineered, **Grip-Lok[®] holds better than tape and helps prevent dislodgment and migration**, resulting in reduced risk of lost lines and patient discomfort. Using Grip-Lok[®] for catheter stabilization conforms to the new Infusion Nursing Standards of Practice¹ and can eliminate the need for sutures and unscheduled catheter restarts, thus directly reducing needlestick injuries.²

Versatile

Grip-Lok[®] can be universally used among a wide range of lines and tubes along with virtually all catheter brands and types.

HYPOALLERGENIC

The Grip-Lok® Advantage

- Easy to use and apply - even with gloved hands
- Strong grip holds important lines in place, saving time, money and patient comfort
- Conforms to the new Infusion Nursing Standards of Practice¹ and can eliminate the need for sutures and unscheduled catheter restarts, thus directly reducing needlestick injuries²
- Hypoallergenic and Latex Free to reduce the risk of allergic reactions
- Sterility allows use close to the insertion site
- Hydrocolloid version designed to be gentle on fragile skin, especially in neonatal patients³

Common Applications

Grip-Lok® can be secured anywhere on the body and can be used universally with lines, tubes and catheters of varying sizes.

- | | |
|---|---|
| • <i>Chest Tubes</i> | • <i>Feeding Tubes</i> |
| • <i>Intravenous Lines</i> | • <i>Central Venous Catheter</i> |
| • <i>Peripherally Inserted Central Catheter (PICC)</i> | • <i>Surgical Drains</i> |

Any place a catheter, tube or line needs to be secured!
